APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the

following limitations and conditions: This permit to change the point of diversion manner and place of use of the waters of an underground source as heretofore granted under Permit 24678 is issued subject to the terms and conditions imposed in said Permit 24678 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a parshall flume. The location of the latter to be approved by the State Engineer. If well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The total combined diversion between this Permit & Permit 26217 is limited to 417.09 MG per annum.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 c.f.s., or 417.09 MG annually.

Actual construction work shall begin on or before August 10, 1972

Proof of commencement of work shall be filed before September 10, 1972

Work must be prosecuted with reasonable diligence and be completed on or before August 10, 1973

Proof of completion of work shall be filed before September 10, 1973

Application of water to beneficial use shall be made on or before August 10, 1976

Proof of the application of water to beneficial use shall be filed on or before September 10, 1976

Map in support of proof of beneficial use shall be filed on or before September 10, 1976

Commencement of work filed SEP 14 1972

Completion of work filed OCT 9 1973

Proof of beneficial use filed
